

A school First Aider has assessed your child.

Although no problems were detected at the time, we request that you observe your child over the next 24 hours for any of the symptoms, they include:

A mild headache

Nausea (feeling sick)

Mild dizziness

Mild blurred vision

If these symptoms get significantly worse or if there are other, more serious symptoms, go straight to the accident and emergency (A&E) department of your nearest hospital or call 999 to request an ambulance. Seek immediate medical attention if, after the knock to the head, you notice any of these symptoms in either you or your child:

Unconsciousness, either briefly or for a longer period of time

Difficulty staying awake or still being sleepy several hours after the injury

Clear fluid leaking from the nose or ears - this could be cerebrospinal fluid, which normally surrounds the brain

Bleeding from one or both ears / bruising behind one or both ears

Difficulty speaking, such as slurred speech / difficulty understanding what people say

Reading or writing problems

Balance problems or difficulty walking

Loss of power or sensation in part of the body, such as weakness or loss of feeling in an arm or leg

General weakness

Vision problems, such as significantly blurred or double vision

Having a seizure or fit (when your body suddenly moves uncontrollably)

Memory loss (amnesia), such as not being able to remember what happened before or after the injury.
